

BIOSTOP[®]

FARM FLY TRAP

Insecticide free trap for fly control

BIOSTOP[®] FLY TRAP is an easy-to-use trap with liquid or very strong powder attractant for different fly species, mainly house flies (*Musca domestica*) but it can be used for other flying insects as well. It is recommended for industrial use e.g. in animal breeding farms. It is suitable to catch several thousands of flies.

ACTIVE INGREDIENT: liquid or powder attractant

ADVANTAGES:

- Easily applicable.
- Environmentally safe.
- The trap contains no toxic insecticide.
- It can capture cca. 15.000 flies.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance: trap: Plastic pouch with yellow/black cap
attractant powder: yellowish powder

Odour: characteristic

Solubility of the attractant: soluble in water

Conditions to avoid: heat, sources of ignition, humidity

Hazardous decomposition: none

GENERAL INFORMATION:

As this trap does not contain any toxic insecticide, it is environmentally safe. Can be used in areas where chemical insecticide application is not desirable.

DIRECTION OF USE:

- Take out the trap, the funnel and the copper-wire from the packaging.
- Fold out the plastic bag.
- Insert the funnel into one of the holes of the trap entrance.
- Pour approx. 0.5-1,0 litre lukewarm water into the bag.
- Remove the funnel.
- Firmly insert the yellow lid on top of the trap house.
- With the help of the attached wire fix firmly the trap at the required height.
- The attractant is packed in water soluble foil. Pending on the heat of the water the material will dissolve within 10-30 minutes.
- Pending on temperature, the attractant needs 2-3 days to reach its full efficacy.

In case of evaporation of the water, occasionally fill up with water.
Keep out of reach of children.

When the trap is full with flies, dispose of to the household waste.

PACKAGING: 1 trap/box, 12 boxes/carton
